## SUMMARY

I'm a **Computer Engineering** Undergraduate at **Istanbul University-Cerrahpasa**. I'm increasing my knowledge regarding software architecture design, **SOLID** design principles, **C#** coding standards / **naming conventions** and varied **design patterns** in order to improve my ability to write better designed and optimized code.

## EXPERIENCE

### Game Developer - Intern

#### Flamingo Game Studio

📅 07/2020 - 09/2020

I have developed 6 **hyper-casual games** which used in **House Life 3D**

- I have learned about **tween libraries** like **DOTween**.
- I started following the **C# naming conventions** and learned about varied **design patterns**.
- Started reading **Clean Code** by Robert Cecil Martin

## PROJECTS

### Stargazer

🌐 <https://github.com/Solideizer/Stargazer>

A project where I experimented with **procedural generation** and unique gameplay ideas to create a first person adventure game where you can explore the outer space.

- This project was one of the first games that I tried to make in order to learn **Unity** and **game development**.

### Grand Fantasy : Stories Untold

🌐 <https://github.com/Solideizer/Grand-Fantasy---Stories-Untold>

A 2D pixel art RPG with a strong emphasis on **turn based combat**.

- I learned about **Scriptable Objects** and how to use them as data containers.
- I learned how to implement **State Pattern**.

### Typing Game

🌐 <https://youtu.be/oWtYFO57wy0>

A 2D typing game

- **Reddit post about this game :**  
[https://www.reddit.com/r/playmygame/comments/l400jm/check\\_out\\_my\\_typing\\_game/?utm\\_source=share&utm\\_medium=web2x&context=3](https://www.reddit.com/r/playmygame/comments/l400jm/check_out_my_typing_game/?utm_source=share&utm_medium=web2x&context=3)
- **Play on your browser :**
